Verizon

401 S. High St
West Chester, Pennsylvania 19382

Dear Neighbor,

In the near future, Verizon will be bringing its technologically advanced fiber optic network to your neighborhood. As part of this effort, we will soon begin placing buried utility lines in your community that provide a fiber-to-the home/business connection. We are sending this notice to give you an idea of what to expect during this construction phase of the project.

First, different colored lines will be painted by utility companies that have facilities in the neighborhood. The lines will appear at various locations on the street, sidewalk and in the grassy areas around your community. This marking of facilities is necessary to identify buried utility lines in the area, as required by law, and is part of the normal construction process in New Jersey. These lines are not permanent; over time, they will fade. If you have a buried sprinkler system, “invisible” dog fence, and/or private landscaping lighting on your property, please contact us at 888-240-5752 or 1.888.268.7824

Next, a “door hanger” will be placed at your home to notify you prior to the day before construction is scheduled to begin. All of the work will be handled by Verizon authorized contractors and their vehicles will be clearly identified with a sign that reads “Verizon Authorized Contractor.” All work will be done in the public right-of-way. The exact location of the public right-of-way in relation to your property was identified during the design phase of the project, and was verified through the permit approval process.

During construction, there is a possibility that some homeowners may see altered terrain in front of their homes but within the public right-of-way. Our goal is to complete this work quickly and with as little disruption as possible. We will restore altered terrain to as close to original condition as possible. However, the time needed for full restoration will depend on weather conditions. In the event any of our efforts cause you concern, you may contact us at the number above and we will address your concerns as quickly as possible.

Once our fiber optic network is available in your neighborhood, you will be notified of how to order FiOS® TV, FiOS® Internet and home phone service. With FiOS® you get:

- Razor sharp award winning TV with over 625+ channels available – including 185+ in HD – **PLUS** the latest movies, your favorite sports and premium channels
- Internet service with speeds of up to 500Mbps and with FiOS Speed Match upload speeds are as fast as your download speeds
- A next generation voice, data and entertainment network with unmatched reputation for speed, reliability and customer service.

Make sure you reserve your spot now to get the earliest possible installation date by visiting verizon.com/fioscomingsoon to learn more about the available services and to let us know you want FiOS. Once FiOS is available, we will contact you, discuss all of the services we offer and schedule your installation. In the meantime, avoid getting locked into a long-term contract with cable so you'll be free to enjoy FiOS as soon as it's available.

Sincerely,
Your Verizon team
